Support for the needy

Ramasamy N P is a driver by profession. He has been with the Vaidyagrama family since its inception. Everyone likes Ramasamy for his gentle nature, and the patients coming to Vaidyagrama insist on Ramasamy picking them from the railway station and airports whichever time of the day or night it is.

Ramasamy has two sons and since past one year his younger son Krishnakumar (13years) has been suffering from Leg pain. Poor Ramasamy was shunting from hospital to hospital in the hope of finding a cure for the ailment. One hospital even performed a surgery which depleted all of the poor man's life's resources. Finally the doctors diagnosed the disease as Bone cancer and the patient was advised to go to any of the hospitals in Chennai or Mumbai for treatment.

Presently Krishnakumar is undergoing treatment for cancer at CMC Vellore. The treatment course advised is 6 doses of chemotherapy followed by a surgery and further 8 doses of chemotherapy. The total cost of all the treatments is above Rs.6 lakhs. Ramasamy is not well off and cannot afford the treatments. Since he is taking care of his son, he is not able to do the work which provides his livelihood.

Punarnava Trust has taken up the work of supporting Ramasamy by raising the much needed money for the cancer treatment of his son. We appeal to all the well-wishers of Vaidyagrama and Punarnava to support this cause.

Navagrahas

Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu form the Nava grahas or the 9 planets s. The first seven planets give their names to the days of the week: Sunday to Saturday respectively. Navagrahas form the basis for Indian Astrology. Predictions are made on scientific and mathematical formulations involving creating one's birth chart (based on place and time of birth), predicting major periods of planetary influence (MahaDasas) as well as current movement of planets in the sky

Our Vision: Live Simple Live Well Live Healthy Live Happy

PunarnavaAyurvedaTrust Newsletter - July, 2014 | Volume 2, Issue 2

Sun being the largest star in our Solar system, while passing its rays to the earth, also touches many other planets before entering into the earth's atmosphere. Thus radiation emanated from the Sun is a mixture of rays with contamination from other planets. These mixed rays are suitable for some and not so for others, whether human or otherwise. To overcome these problems they found simple solutions from nature itself and discovered that each planet is, in one or other way linked to the nature, viz. tree, plants, grain, mineral and color too. A volunteer says ...

My name is Alba, from Spain. I arrived to India 6 month ago looking for the real understanding of the ancient Ayurveda. In the middle of my journey, about three month ago, God gave me a new instruction - Get a bus and reach Vaidyagrama; the eco-friendly ayurvedic hospital. I would like to share my experience as a family member of Punarnava Trust, Coimbatore, India. Their initiative stole my heart and thanks to Punarnava Trust I am now also participating in some of the activates they run with all the member of the village: from the elder to the children. As Ayurveda medical camps, community lunch, daily tuitions, daily yoga classes... I am very happy to have the opportunity to share the life and spiritual responsibility to do right from the heart with a community like Punarnava. Which I believe is the ultimate aim of life. Thanks to Bhagavan who is the creator of everything I can experience in this life.

International conference on Ayurveda Where science meets consciousness

Exploring interconnectedness of man and cosmos

We invite you to attend the 5th International Conference on Ayurveda at Vaidyagrama Healing Village, Coimbatore, TN.

The previous four conferences have attracted globally renowned presenters and more than 2,000 registrants from more than 20 countries. Exploring the interconnectedness of man and the cosmos,through Ayurveda and allied knowledge systems, is the theme of this conference.

During this seven day conference, scholars, physicians, astrologers, students and others from around the globe, will have the opportunity to experience, deliberate and discuss interconnectedness in the context of:

- ➤ How Jyotisha or the influence of the nine planets (navagrahas), the twelve constellations of the zodiac(rashis), and other celestial bodies impact human physiology and experience;
- ➤ How Sthapatyaveda, the science of understanding space enhances interconnectedness
- ➤ How Gandharvaveda, the science of art, music and dance supports interconnectedness
- ➤ How Tantra provides an in depth understanding of interconnectedness.
- ➤ How Mantras and Pujas connect man and nature
- ➤ How Yoga restores interconnectedness

This is perhaps the first time an attempt is being made to understand this subject, not merely, at a theoretical level but to present it at a practical level. This conference is an experiment at bringing ancient timeless theories into our day-to-day life.

World renowned presenters and practitioners like Mother Maya, Dr. Vasant Lad, Dr. Robert Svoboda, Dr. Claudia Welsch, Rose Baudin, Dr. N Gopalakrisnan, Shri V Vasudevan, Dr. Ram Manohar, MyraLewin and many other Indian and International presenters will share their wisdom and experience at the conference.
